Comprehensive Cyber Insurance From Intiveo

Intiveo Has Done the Hard Work For You

Your data is more vulnerable than ever in this day and age, making cyber security and insurance even more important than it has ever been. This has also led to an increase in uncertainty about where to turn for cyber insurance.

During the Covid pandemic:

Governments faced a

1885%

increase in cyber attacks

The healthcare sector faced a

755%

increase in cyber attacks

The cost of a breach was estimated at around

$4.25m

The healthcare field especially is at a high risk for hacking and cyber attacks, so it is important that you are properly protected in case of a data breach.

Cyber Insurance Coverage For $7500 Per Year

Intiveo's cyber insurance add-on covers you up to **$10 million** in the event of a data breach. Our ability to provide such ample coverage demonstrates the care we take with our data processes, earning the confidence and trust of our clients.

Intiveo's cyber insurance is the one for the modern age; reach out today to speak to our specialists about being covered under our policy.
