# Intiveo Patient Communication Software.
Built for OMS.

Intiveo OMS handles all the intricate procedure-based communication required by OMS practices. Provide the pre-op and post-op instruction necessary to ensure a successful treatment outcome. Automatically confirm appointments, send out health questionnaires, engage in 2-way chat with patients, generate reviews – all with Intiveo OMS.

Hundreds of OMS practices are using Intiveo to achieve tangible results such as:

75% reduction in unsuccessful appointments due to unprepared patients

Save an average of 2 hours a day on phone calls and voicemails per office

75% increase in patient confirmations

2x increase in patient reviews

intiveo.oms.

OMS practices operate very differently from General Dentistry, Intiveo OMS is built with your complex communication needs in mind.

- Customizable OMS-specific patient messaging with pre and post op instructions
- Automatic appointment confirmations
- Online health screening questionnaires
- 2-way chat to centrally manage texts in a single location or across multiple locations
- Pre-built messaging templates specific for OMS practices
- Enablement and support team who have worked extensively with OMS practices
- Integrated with leading OMS technology providers

Our features that help your OMS practice
