reminders

Link to your educational videos

Intiveo for Ortho is designed to optimize your practice to ensure chair time is always filled, improve length of care, and reduce missed appointments with automated recall messaging.

- Implement a virtual waiting room
- Provide health screening questionnaires before appointments
- Improved online reviews will help the reputation of your practice
- Automated reminders to ensure patients come back for monthly adjustments
- Choose what educational content your practice will provide for your patients
- Text back and forth with ease, right from your computer
